

ESOP TEAM

OVERVIEW

BCLP has an interdisciplinary team of lawyers dedicated to advising trustees, companies, equity sponsors, and lenders involved with Employee Stock Ownership Plans (or “ESOPs”).

With respect to our corporate and transactional matters, our team regularly advises clients in the utilization of ESOPs for shareholder liquidity, including the creation and implementation of ESOPs, the sale of stock to ESOPs (both partial sales and complete change of control transactions), and mergers and acquisitions of ESOP companies. In connection with corporate transactions, we regularly advise clients in Section 1042 transactions and S corporation tax structuring. Our team also regularly counsels lenders with respect to ESOP acquisition financing and ordinary-course financings for ESOP companies. Finally, we have an unparalleled depth of knowledge advising trustees, shareholders, lenders, and boards of directors on fiduciary and governance-related issues confronting fiduciaries and ESOP-owned companies.

With respect to litigation and corporate risk, our litigators represent ESOP trustees and plan sponsors in lawsuits for breach of fiduciary duty or other violations of ERISA. We also regularly guide ESOP companies and fiduciaries through investigations by the Department of Labor and other governmental agencies.

Our team is often published in journals and regularly presents to professional and business groups regarding the use of ESOPs in areas such as succession planning, leveraged buyouts and M&A transactions.
