

TAXATION OF CORPORATE TRANSACTIONS

OVERVIEW

We act for corporate clients on all aspects of their strategic transformational transactions. We also act for providers of warranty and indemnity and other tax risk insurance in relation to risk assessment and policy cover/drafting, which in turn provides us with sector insight to assist corporate clients in relation to their insurance requirements.

We give clear, practical advice that helps our clients to achieve their strategic objectives. We provide structuring and tax planning advice, using our deep knowledge to provide creative solutions, as well as taking care of the documentary side of implementation, including tax-related opinions and disclosure materials.

Our team is multinational and provides clients with collaborative and seamless tax support to cross-border transactions and issues.
