

INTERNATIONAL FRANCHISING

OVERVIEW

BCLP franchise attorneys counsel clients with their international expansion. We have represented franchisors expanding into North America, and also represented franchisors seeking to export their North American franchise system to other points on the globe. We have a team of attorneys located throughout the world to assist in our efforts. Our London office has served as a gateway for franchisors into the United Kingdom and the EU. Our Shanghai office can effectively move franchise systems into and out of the Far East.
